# 01 | Product Overview

## ICUMSA 45 Refined White Sugar

A refined white sugar product offered for international B2B consideration. Buyers are encouraged to submit their required specification, target quantity, destination port, and intended application so that product suitability and supply details can be confirmed.

| Product name                          | ICUMSA 45 Refined White Sugar                                                   |
|---------------------------------------|---------------------------------------------------------------------------------|
| Country of origin                     | Brazil (supplier-stated; supporting documentation to be confirmed)              |
| Product category                      | Refined white sugar                                                             |
| Packaging indicated                   | 50 kg bags                                                                      |
| Price                                 | Price on request                                                                |
| Minimum order quantity                | To be confirmed with supplier                                                   |
| Available quantity / monthly capacity | To be confirmed before quotation                                                |
| Stock status                          | Subject to confirmation at time of inquiry                                      |
| Export destination                    | Worldwide inquiries welcome; feasibility and restrictions depend on destination |

## Specifications to confirm before purchase

- ICUMSA color test method and current certificate of analysis (COA)
- Polarization / sucrose content, moisture, ash, and other buyer-required parameters
- Food safety, quality, and phytosanitary or other documents, where applicable
- Bag material, bag marking, palletization, container loading, and net weight
- Production lot, batch traceability, shelf-life or storage guidance where relevant

Important: no unverified laboratory values, certifications, production capacity, or stock quantities are represented as established facts in this catalog.

## 02 | Trade & Export Inquiry

### How to request a quotation

To help us assess your requirements, please include the following information in your inquiry:

- **Product:** ICUMSA 45 Refined White Sugar
- **Required quantity:** metric tonnes (MT) and whether the order is one-time or recurring
- **Destination:** country and destination port
- **Packaging:** confirm whether 50 kg bags meet your requirement
- **Delivery terms:** preferred Incoterm, such as FOB or CIF, subject to agreement
- **Target schedule:** requested shipment window
- **Documents:** specify any import, quality, or food-safety documents required by your country

### Commercial terms

Price, minimum order quantity, payment terms, shipment availability, loading port, lead time, and freight costs are not fixed in this catalog. These details should be agreed in a written pro forma invoice or sales contract after the supplier confirms the order requirements.

### Export documentation

Depending on the transaction and destination, buyers may request documents such as a commercial invoice, packing list, bill of lading, certificate of origin, certificate of analysis, and relevant food-safety or import documents. Availability and requirements must be checked for each shipment; this catalog does not certify that any particular document has already been issued.

**REQUEST A COMMERCIAL QUOTATION**

### Company representation and certification notice

Use only company details and supporting documents that are accurate and authorized. Do not describe the company or product as ISO 22000 certified, or display an ISO certificate as proof of certification, unless a valid certificate has been issued by a competent certification body and covers the relevant activity and site.
